

I am writing to express my concerns regarding the LPFM stations that may take over other existing radio stations such as K-Love, which ministers God's word to so many people. K-Love is such a huge asset to everyone and helps to calm people during morning traffic and all the hussle and bussle of the day. I think that Christian music or any music for that matter, that reiterates the presence of our Lord and His voice should not be displaced by other means of communication. The world has not reached a point in time such as this where it needs to be ministered to. We have war and fighting and road rage! We need to be reminded of the bigger picture constantly, and K-Love helps to do just that. It is such a wonderful feeling to drive and see bumper stickers supporting this radio station and all the people who work hard to make pledges to keep this music on the air is a huge reason why K-Love is needed. Please do not replace such a valued station with anything else. Sincerely and God Bless! Allison Fitzgerald
